

# The World of Aesthetic and Creative Expression

(RQ 3148 )

**Description:** Students with an education grounded in the liberal arts should be able to understand, interpret, enjoy, and create forms of human expression. Humans express themselves creatively through such mediums as song, acting, dance, writing or performing music, visual arts either real or virtual, poetry, and fiction and non-fiction writing. These represent the most fundamental ways in which human beings have related to one another and have related themselves to the world throughout time and thus are an integral part of liberal arts education.

Students will be able to:

2. Analyze aesthetic creative work, or
